

## A Message from the Board of Trustees

The Lawrence Library Board of Trustees has carefully considered options for full reopening in light of Governor Baker's recent permissions for some services.

Our Director and staff have developed and maintained thoughtful and effective protocols for ensuring the safety of themselves and our patrons throughout this COVID-19 year. They have creatively provided access to both in-person and virtual services and programming, and their devotion to meeting the needs of our community has been exemplary.

The success of our safety measures, and the current recommendations of the CDC, suggest that a continuation of our current hours and procedures is most prudent.

We thank our patrons and staff for embracing the challenges this year has posed, and assure the community that the Board of Trustees will revisit a return to normal hours each month at our meeting. We all look forward to a return to full service!
